## Contents of Volume 116 1989

### Volume 116, No. 1, 1989

J.L. Armstrong, N.L. Fowles and P.T. Rygiewicz, Restriction fragment length polymorphisms distinguish ectomycorrhizal fungi 1

B.J. McAfee and J.A. Fortin, Ectomycorrhizal colonization on black spruce and jack pine seedlings outplanted in reforestation sites 9

I. Matos and E.C. Schröder, Strain selection for pigeon pea Rhizobium under greenhouse conditions 19

G. Petruzzelli, L. Lubrano and G. Guidi, Uptake by corn and chemical extractability of heavy metals from a four year compost treated soil 23

R.P. Beckett and J. van Staden, The effect of seaweed concentrate on the growth and yield of potassium stressed wheat 29

S. Nagarajah, H.U. Neue and M.C.R. Alberto, Effect of Sesbania, Azolla and rice straw incorporation on the kinetics of $NH_4$, K, Fe, Mn, Zn and P in some flooded rice soils 37

A.R. Pal, D.P. Motiramani, G.S. Rathore, K.N. Bansal and S.B. Gupta, A model to predict the zinc status of soils for maize 49

J.P. Wacquant, M. Ouknider and P. Jacquard, Evidence for a periodic excretion of nitrogen by roots of grass-legume associations 57

S.J. Chapman, Oxidation of micronized elemental sulphur in soil 69

L.S. Brophy and G.H. Heichel, Nitrogen release from roots of alfalfa and soybean grown in sand culture 77

L. St-Cyr and A.A. Crowder, Factors affecting iron plaque on the roots of *Phragmites australis* (Cav.) Trin. ex Steudel 85

A.S. Modaihsh, W.A. Al-Mustafa and A.I. Metwally, Effect of elemental sulphur on chemical changes and nutrient availability in calcareous soils 95

**Short communications**

D.R. Nanda, B.B. Mishra and B.N. Misra, Toxicity degradation of waste soil from a chlor-alkali factory by *Azolla pinnata* Lam 103

S.K. Schmidt and F.B. Reeves, Interference between *Salsola kali* L. seedlings: Implications for plant succession 107

G.C. Wright, Effect of pod zone moisture content on reproductive growth in three culitvars of peanut (*Arachis hypogaea*) 111

J.L. Smith, J.M. Norton and E.A. Paul, Decomposition of $^{14}C$- and $^{15}N$-labeled organisms in soil under anaerobic conditions 115

P.J. van Erp and P. van Lune, A new method for determining the relation between soil- and plant-cadmium 119

K.G. Davies and R. Whitbread, *In vitro* studies of siderophore production by wild type and rifampicin resistant strains of fluorescent Pseudomonads 123

L.A. Mackie-Dawson, The effect of surface soil consolidation on the early root development of pea (*Pisum sativum* L.) 126
L.A. Douglas and R.W. Weaver, Partitioning of biologically fixed nitrogen in cowpea during pod development 129

**Volume 116, No. 2, 1989**

El Sayed Azhar, O. van Cleemput and W. Verstraete, The effect of sodium chlorate and nitrapyrin on the nitrification mediated nitrosation process in soils 133
D. N. Omokaro and C. O. Ajakaiye, Effects of soil applied herbicides on leaf nitrate reductase and crude protein in the leaf and seed of two cowpea cultivars 141
M. C. Hampson and J. W. Coombes, Pathogenesis of *Synchytrium endobioticum*. VII. Earthworms as vectors of wart disease of potato 147
M. S. Hassan, A. H. El-Behaldi and I. S. Alsaadawi, Citrus replant problem in Iraq. I. Possible role of soil fungi and nematodes 151
M. S . Hassan, I. S. Alsaadawi and A. H. El-Behaldi, Citrus replant problem in Iraq. II. Possible role of allelopathy 157
M. S. Hassan, A. H. El-Behaldi and I. S. Alsaadawi, Citrus replant problem in Iraq. III. Interactive effect of soil fungi and allelopathy 161
J. K. Schjørring, N. E. Nielsen, H. E. Jensen and A. Gottschau, Nitrogen losses from field-grown spring barley plants as affected by rate of nitrogen application 167
P. A. Rother and B. McKercher, Crop responses to applications of both chlorsulfuron and monoammonium phosphate 177
R. A. Smith and J. R. Porter, Response of cowpea to variations in planting density and nutrient level 183
O. Heinemeyer, H. Insam, E. A. Kaiser and G. Walenzik, Soil microbial biomass and respiration measurements: An automated technique based on infra-red gas analysis 191
C. Uhel, C. Roumet and L. Salsac, Inducible nitrate reductase of rice plants as a possible indicator for nitrification in water-logged paddy soils 197
C.-H. Chou, S.-J. Chang, C.-M. Cheng, Y.-C. Wang, F.-H. Hsu and W.-H. Den, The selective allelopathic interaction of a pasture-forest intercropping in Taiwan. II. Interaction between kikuyu grass and three hardwood plants 207
Z. Rengel and D. L. Robinson, Determination of cation exchange capacity of ryegrass roots by summing exchangeable cations 217
Z. Rengel and D. L. Robinson, Aluminum and plant age effects on adsorption of cations in the Donnan free space of ryegrass roots 223
M. A. J. Loree, I. Lumme, M. Niemi and T. Tormala, Inoculation of willows (*Salix* spp.) with ectomycorrhizal fungi on mined boreal peatland 229
K. G. Davies and R. Whitbread, A comparison of methods for measuring the colonisation of a root system by fluorescent Pseudomonads 239
K. G. Davies and R. Whitbread, Factors affecting the colonisation of a root system by fluorescent Pseudomonads: The effects of water, temperature and soil microflora 247
V. C. Baligar, H. L. dos Santos, G. V. E. Pitta, E. C. Filho, C. A. Vasconcellos and A. F. de C. Bahia Filho, Aluminum effects on growth, grain yield and nutrient use efficiency ratios in sorghum genotypes 257
C. A. Beyrouty and D. M. Oosterhuis, The porous-membrane technique for root studies of field-grown crops 265

**Short communications**

D. L. Price and R. K. Heitschmidt, Reduction in belowground biomass estimates from freezing of soil cores 273
L. D. Kuykendall, Influence of *Glycine max* nodulation on the persistence in soil of a genetically marked *Bradyrhizobium japonicum* strain 275
P. L. Giusquiani, M. Patumi and M. Businelli, Chemical composition of fresh and composted urban waste 278
P. G. Hartel and J. H. Bouton, *Rhizobium meliloti* inoculation of alfalfa selected for tolerance to acid, aluminum-rich soils 283
K. V. B. R. Tilak, C. Y. Li and I. Ho, Occurrence of nitrogen-fixing Azospirillum in vesicular-arbuscular mycorrhizal fungi 286
S. J. H. Rizvi, G. P. Mishra and V. Rizvi, Allelopathic effects of nicotine on maize. I. Its possible importance in crop rotation 289
S. J. H. Rizvi, G. P. Mishra and V. Rizvi, Allelopathic effects of nicotine on maize. II. Some aspects of its mechanism of action 292
